About This Game

dontbegrey is a minimalistic hardcore platformer with experimental color-themed mechanics. The main feature is the ability to change what is an obstacle and what is the background.

What's inside:

- > 8 colors
- > more than 35 levels
- > computer-composed music
- > about 3 hours of gameplay (about 30 minutes for ultra-pro speedrunners)
- > linux and windows support
- > external level editor (python3 script)

The game was written in haxe, using openfl framework.
The music was composed by music artificial intelligence on jukedeck.
